ALEA

Design Centro Stile Esperia

IT. Da un singolo pendente a composizioni infinite, ALEA evolve insieme alla tua creatività. Un unico modulo dà vita a interpretazioni senza limiti, passando da una presenza minimale a una composizione monumentale.

L'alabastro di Volterra incontra il metallo in un dialogo raffinato di texture, luce e forma, rivelando la propria anima attraverso l'illuminazione che trasforma la pietra in una presenza luminosa.

Ogni elemento ALEA è modellato dalle venature naturali dell'alabastro, rendendo ogni pezzo unico e vivo. La luce scorre attraverso la pietra, esaltandone profondità, materia e bellezza organica.

ALEA celebra la purezza dei materiali naturali, dove la pietra si addolcisce e la luce prende forma.

EN. From a single pendant to infinite compositions, ALEA unfolds as an expression of pure creativity. A single module becomes a canvas for endless interpretations, evolving from a discreet, minimal gesture into a monumental presence.

Volterra alabaster meets metal in an elegant dialogue of texture, light, and form, revealing its essence as illumination transforms stone into a radiant, living material.

Each ALEA element is defined by the natural veining of alabaster, ensuring every piece is inherently unique. Light gently flows through the stone, enhancing its depth, softness, and organic beauty.

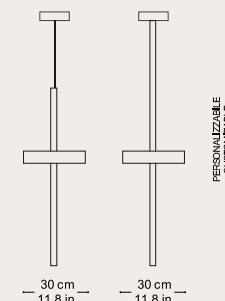

ALEA is a celebration of noble materials, where stone is softened by light and illumination takes on a sculptural form.

DIMENSION

Alabaster : Diameter 30cm - Height 7 cm
Total Height and configuration - Customizable
Weight: 3 kg / 7 lb

LIGHT SOURCES

2700k - 3000k - 15W - 1000lm

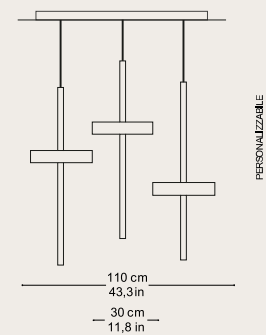

ALEA 3

DIMENSION

Lenght : 110 cm
 Alabaster : Diameter 30cm - Height 7 cm
 Total Height and configuration - Customizable
 Weight: 10 kg / 22 lb

LIGHT SOURCES

2700k - 3000k - 45W - 3300lm

ALEA 5

DIMENSION

Length : 150 cm
 Alabaster : Diameter 30cm - Height 7 cm
 Total Height and configuration - Customizable
 Weight: 16 kg / 35 lb

LIGHT SOURCES

2700k - 3000k - 70W - 5500lm
