ASTRA

Design Centro Stile Esperia

IT. Ispirato all'armonia delle costellazioni, Astra trasforma la luce in un'esperienza scenografica. Le sue forme circolari, leggere e fluttuanti, si diramano nello spazio come orbite luminose, creando un equilibrio perfetto tra movimento e geometria.

La struttura in ottone satinato dona calore e prestigio materico, mentre i componenti in metallo verniciato bianco definiscono un'estetica pulita e contemporanea.

Il diffusore inferiore, personalizzabile, permette di modulare l'atmosfera:

bianco opalino, per una luminosità uniforme e moderna, essenziale e raffinata.

alabastro naturale, per una luce più emozionale e vibrante, ricca di sfumature e carattere.

EN. Inspired by the harmony of the constellations, Astra transforms light into a striking, scenographic experience. Its circular forms, light and seemingly weightless, branch out through space like luminous orbits, creating a perfect balance between movement and geometry.

The satin brass structure lends warmth and material prestige, while the white painted metal components define a clean, contemporary aesthetic.

The customizable lower diffusers allows you to shape the atmosphere:

• opal white, for a uniform and modern glow, essential and refined.

• natural alabaster, for a more emotional and vibrant light, rich in nuances and character.

DIMENSION

DIMENSION

Adjustable total height

160 x 95cm / 63 x 37 In

Weight: 10 kg - 22lb / Opal Diffusers

22kg - 48lb / Alabaster Diffusers

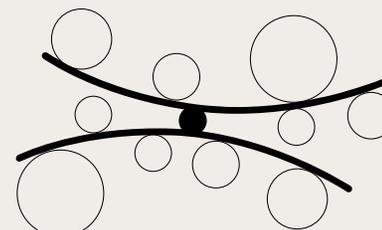

LIGHT SOURCES

2700K - 3000K

75W - 5500lm

Dimming: Dali - DMX - 0-10 - 1-10
