IT. Una lampada minimale ma estremamente curata nei dettagli e nei materiali utilizzati, con un forte impatto emozionale. Un "oggetto" illuminante che ridefinisce gli standard di una moderna lampada decorativa di alta gamma. Cuoio (disponibile in versione eco) e ottone. Morbidezza e rigidità. Uomo e macchina. Partendo da una lastra di ottone solido spessa 10mm (per finiture Gold) o una lastra in alluminio spessa 12mm (per finiture Silver), i LED sono inseriti all'interno di fessature e coperte da strisce opaline. Nella versione Terra-Soffito, la piastra di ottone sembra letteralmente sospesa e sostenuta fra le due cinture.

EN. A minimal lamp that nonetheless shows utmost care to detail and the materials used, with a strong emotional impact. An illuminating "object" that redefines the standards of a modern, high-end decorative lamp. Starting from a 10 mm thick solid brass plate (for Gold finished) or a 12 mm thick solid aluminum plate (for Silver finishes), the LEDs are set in grooves and covered with opal strips. In the Floor-Ceiling version, the brass plate seems to be literally suspended and supported between the two belts.
